

THE PAWMAIDEN'S BOOKS

An unusual collection of booklets written and illustrated by 'The Pawmaiden of Moggiden', a genuine animal lover. These booklets are written from the point of view of the animal - mostly cats, but also featuring hamsters and dung beetles!

The stories were donated to Glastonbury & Wells Cats Protection by the Pawmaiden to raise funds for local cat welfare.

THEY CALL ME BODKIN

The autobiography of a country cat. This is the true (well almost) story of a simple, honest, unsophisticated fellow who found happiness at the Moggiden Retirement Home via Cats Protection.

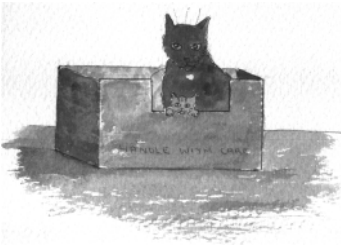

KITNAPPED

When little Victoria and Albert are so cruelly kitnapped, their distraught mother, Charlotte, naturally turns to her dear friend Hercule Purro for help. Hercule's little grey cells get to work and soon - with the aid of his sidekick, Perkins, the trail is being followed. But all is not as it seems, so finally Hercule has to enlist Phoebe's help to complete the mission. But will they be in time?

THE DIARY of SAMUEL PEEPS

A wonderfully written story of a city cat. It is funny, sad at times, but all ends happily. Above all it shows how well the Pawmaiden understands cats.

FRED'S CHRISTMAS GIFT

The story of a cat living on her wits - and surviving, with the help of cat lovers she meets along the way. She has good times and bad times but eventually, as

a middle aged cat, finds happiness and a safe haven at Christmas.

TAILS from MOGGIDEN

The stories of some of the many cats who have spent their twilight years in the Moggiden Retirement Home. All have their own little characters and all were much loved by the Pawmaiden.

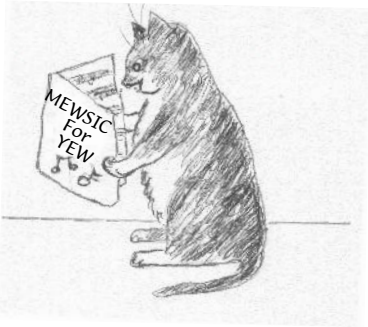

POMES by JASPER

This delightful and humorous book of “Pomes” by a very talented cat will lift the spirits and raise a smile every time it is opened.

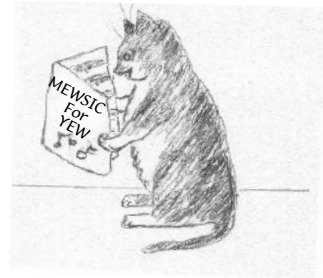

THE CASTLE CAT

The story of Marmalade Archer (Jasper’s brother) who has always had ideas above his station, and nearly becomes a film star.

WIDGET’S LITTLE SONG BOOK

A book for the over 21’s - to put it politely - Widget has produced a song for every occasion, set to tunes we all know. Guaranteed to make any party go with a swing!

THE GREAT JOURNEY

The story of an amazing journey of a community of dung beetles whose cosy life changed when their cows disappeared and they set out to find them, guided by their friend Buzzbee.

BIBI - The Life and Times of a MAJI-CAT

There has been much controversy in recent times, regarding the authenticity of Maji-Cats and The Gift. There are those who believe them to be myths. On the other hand, the well known and respected historian, Professor Ivor Pheelyne is convinced that they existed, indeed, that they may still exist, possibly in more remote areas than they formerly inhabited.

The Pawmaiden's books can only be bought from the Glastonbury & Wells Branch of Cats Protection at **£2.50 each**
